

Adopt a School for Junior Achievement!

Because building a better future starts in your own backyard!

School Sponsorship: Building a better future for our children begins with ensuring that every child receives the valuable **financial literacy** and **entrepreneurial** lessons Junior Achievement programming provides! As business owners, you can impact *your* community through **Junior Achievement's School Sponsorship program!**

How School Sponsorship Works

- Your business commits to sponsoring JA programs for every child at a school of your choice. Not sure which school to choose? JA can help you identify an at-risk elementary school most in need of business and community support.
- Based upon the number of classrooms at the school, JA will work with your business to determine sponsorship cost.
 - **JA In-Classroom Programs:** the minimum cost to underwrite JA classroom programs is \$81.35/class
 - **JA BizTown:** \$20 per 4th grade student

Advantages for your Business

- 1) Provides a solid community-based school partnership for you and your company facilitated by Junior Achievement.
- 2) Students gain the crucial financial literacy skills that will help them be successful, responsible members of the community.
- 3) Recognition for your company through JA's monthly newsletter reaching 17,000 constituents, and day sponsorship recognition in JA BizTown.
- 4) Opportunity to promote your business to volunteers, educators, parents and the community at large.
